

7) Workshop on skill development : Case Study Analysis in association with CIMA, UK

An academic workshop was conducted by the Department of Professional Studies in collaboration with CIMA, UK on case studies. Different topics were discussed during the workshop including Block chain technology, GST & its application, forensic accounting and artificial intelligence for managers. The main focus of the workshop was on case study analysis to help academics in the region to master the use of case studies in the classroom. Particularly focusing on the areas of the digital economy and the use of technology in the accounting space, our workshop aims to provide academics a better understanding of the future of finance and accounting in extraordinary times which their students and graduates will face in corporate world.

Department of Professional Studies		
Academic Workshop on Case Study Analysis		
In Association with CIMA
